A HISTORY OF QUALITY

Welcome to the Aquadi brand of bathrooms from Symphony. Symphony is one of the UK's largest suppliers of fitted kitchen, bedroom, bathroom and home office furniture. As a market leader with over 45 years' experience we are constantly investing in ways to improve our products, service and sustainable manufacturing principles to create the perfect living space.

TEN YEAR GUARANTEE

Each piece of furniture from Symphony is assured with a 10 year guarantee. Stringent quality control systems guarantee you receive the best quality furniture that is built to last, so you can buy our furniture with complete confidence.

HAND PICKED RETAILERS

Symphony has carefully selected and built strong relationships with your local retailer so that you can enjoy purchasing your new bathroom. This means you get the best choice of bathrooms to suit your lifestyle and a design service from experts that help create the space that is right for you.

HIGHEST STANDARDS

Symphony is a fully accredited member of FIRA, the Furniture Industry Research Association. All our bathroom furniture passes the FIRA Gold product certification and ongoing auditing procedures continuously benchmark our performance.

QUALITY CRAFTSMANSHIP

Symphony's production facility in the UK sets the benchmark for the whole UK furniture industry. It boasts some of Europe's most advanced manufacturing and assembly technology, and all Aquadi bathrooms are made to the most stringent quality standards.

by Symphony®

HOW TO ORDER

Aquadi offers an abundance of bathroom furniture ranges and styles to choose from. Simply follow the stages shown to help create the perfect bathroom for your customers.

Ensure that all details are included and send your requirements through to: retailsales@symphony-group.co.uk

1. STYLE

Modular or Fitted

2. RANGE

e.g. Fiora Gloss Cashmere

3. CABINET COLOUR

Gloss White or Linen

4. UNITS

e.g. SRBC638

5. HANDLES

e.g. CHOICE81

6. COUNTERTOPS

e.g. CTPR3036 Gloss White

7. ACCESSORIES

e.g. Tablet Illuminated Mirror

Aquadi is available in contemporary and classic ranges across both modular and fitted furniture options. Select the style that suits your customer's home best from city apartments to country cottages.

All prices are effective from 19th March 2019.
All units are assembled. All prices include VAT.

Include your order number/reference on all orders placed
and send your requirements through to:
retailsales@symphony-group.co.uk

Tel: 01226 446 541 Fax: 01226 719317
Please contact the above to request an electric order form should you require one.

MODULAR

Cool and contemporary define modular furniture options. Standalone WC cabinets mixed with wall hung basin cabinets provide a stylish setting with all the storage space you could need.

FITTED

Maximising the storage space across an abundance of cabinet and colour options define the fitted style. Include a run of base and wall cabinets so that everything has a place and make the bathroom work around your customer and their lifestyle.

Important things to note:

Look out for these throughout the price list for key information.

Handles

Standard handle is included in the price of doored/drawer units.

Cabinet Colours

Gloss White

Linen

The gloss white cabinet will be supplied as standard unless specified otherwise.

A number of ranges are available with the option of including Inline chrome handles, as detailed on the Range Overview page. The Inline handles will coordinate well with your chosen taps and accessories, providing a contemporary finish to your bathroom.

The Inline handle is supplied pre-fitted to each frontal and available on the majority of cabinet options. Any cabinets that are not available in Inline are detailed throughout this price guide.

One Inline handle is attached to each frontal. For WC units, one handle is attached to the top of the large fascia panel only to provide a continuous design with adjacent units.

The price for including the Inline handle on each unit is 10% higher than their standard equivalents, regardless of the number of handles needed.

Eg. BU638 in Granada is £197, or include this unit with the Inline handle option for £217 (RRP incl. VAT).

When ordering Inline, please specify this as the range e.g. Inline Granada. Please note that no additional handles are required for the Inline option.

Standard Range	Inline Range
Aviano	Inline Aviano
Girona	Inline Girona
Granada	Inline Granada
Fiora	Inline Fiora
Carrara	N/A
Lucca	Inline Lucca
San Marco	N/A
Valencia	N/A

To enhance the finish of a selection of our bathrooms within Aquadi, replacement cabinet end panels are available to order at no extra cost if ordered with a unit. On base and tall storage units, the replacement cabinet end panel is a full length panel extending to the floor and therefore additional end blender panels will not be required.

The replacement end panels are designed to be used at the exposed ends of a unit run only.

Replacement cabinet ends are easy to order, simply add on one of the following suffixes to the standard unit code:

Left hand side replacement cabinet end add **GL**
e.g BC638GL (See Fig.1)

Right hand side replacement cabinet end add **GR**
e.g BC638GR (See Fig.2)

Both left and right sides replacement cabinet end add **G2** e.g BC638G2 (See Fig.3)

VALENCIA IN-FRAME PANELS

Available in all Valencia finishes only.

Base In-Frame Panel 356mm(w) x 22mm(d)	£
811mm(h)	BWU35822BT 51
Tall In-Frame Panel 356mm(w) x 22mm(d)	£
2043mm(h)	BLU35222BT 100
Plinth 87mm(h) x 24mm(d)	£
2400mm(w)	PLINTH2424P 44

Can be used as a cornice and pelmet.

A selection of 22mm panels, in-frame plinth and cornice/pelmet are available for Valencia to create a full in-frame look.

Simply design a base blender panel in between every base unit and at the ends of a run to create the look. The in-frame plinth is an L-shape and designed to be stepped back from the framing panels/frontals.

Tall blender panels are available for tall units.

Order wall units with replacement ends (G2) and mitre a plinth on site to wrap around the top and bottom of the units.

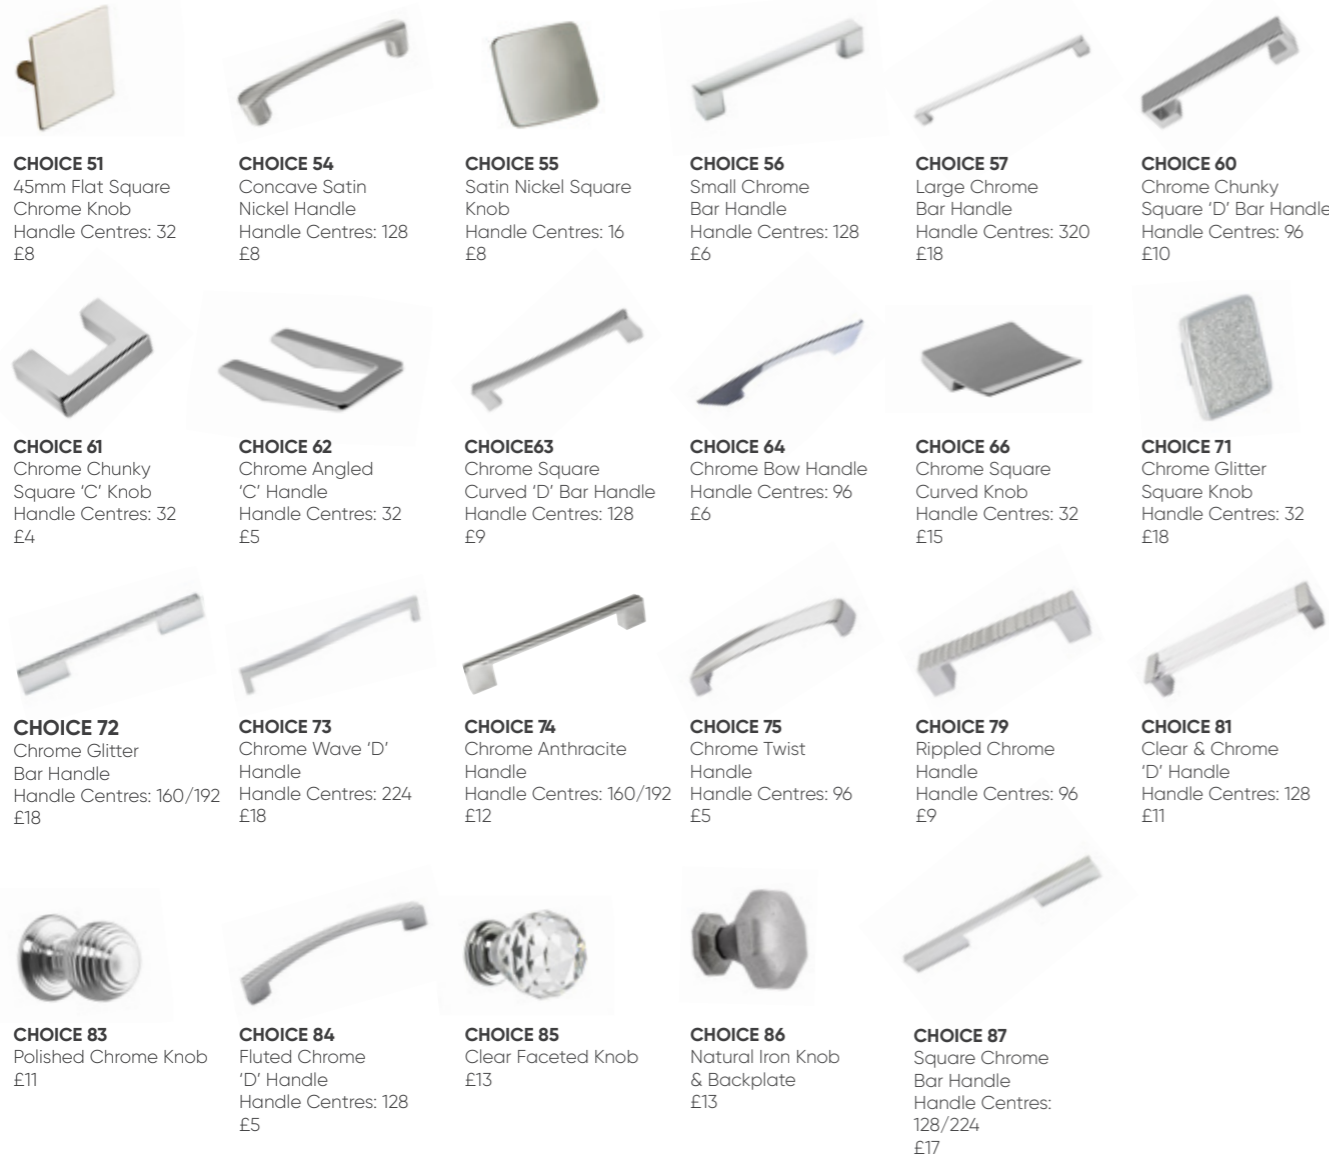

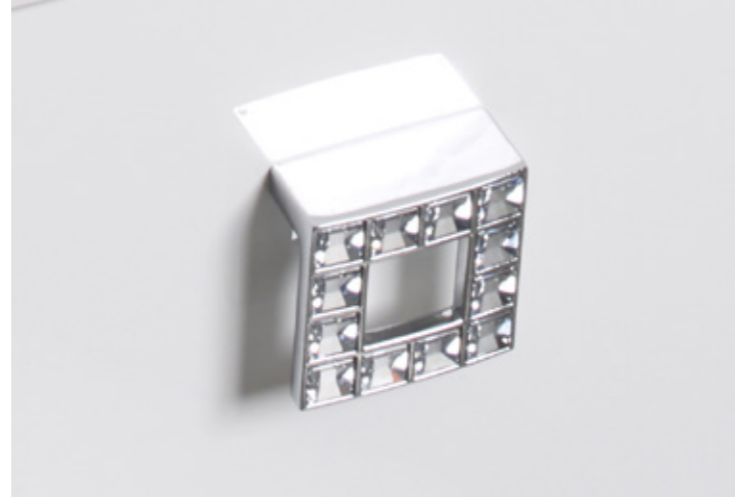

FINISHING TOUCHES

Make it personal by dressing up your furniture with our wide range of handles and countertops. With so many options available, you'll be sure to find what you're looking for.

HANDLES

A wide selection of standard handle options are available to choose from. These have 'CHOICE' numbers and are included in the price of the units.

LUXURY01*
Chrome and Crystalized™ Swarovski Elements pull handle. Featuring 12 genuine Swarovski crystals in a stunning chrome finish.
Handle Centres: 32
£67

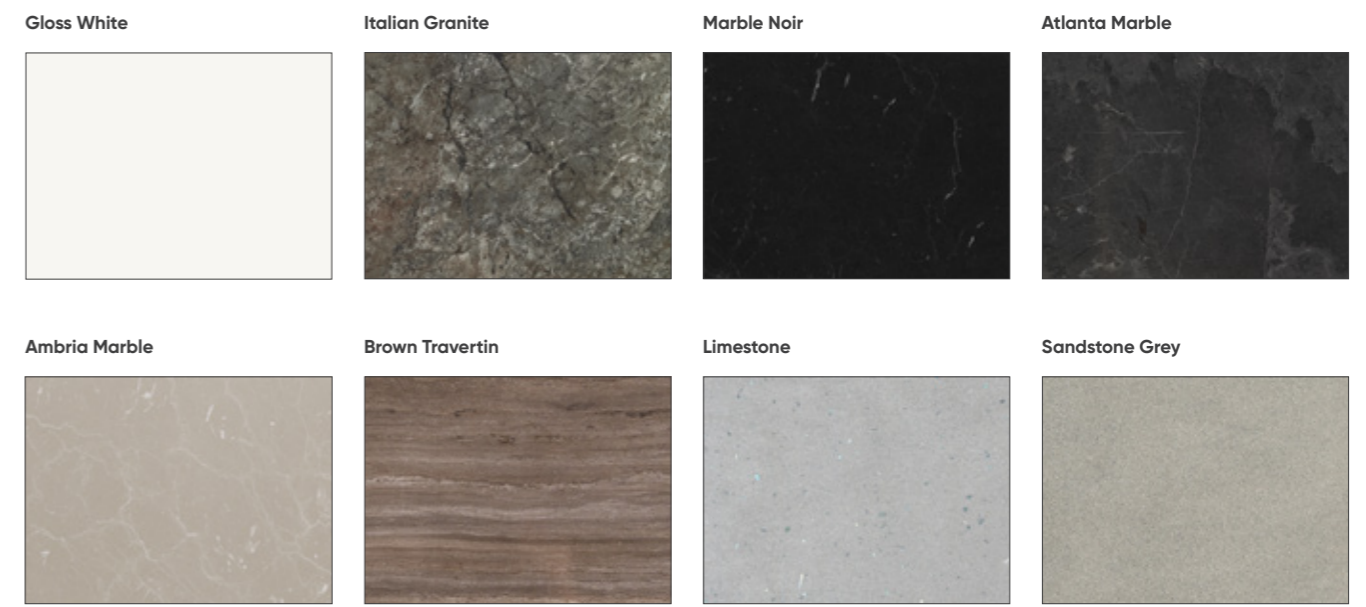

INLINE
The Inline handle is available on selected units. The price for including the Inline handle on a unit is 10% higher than their standard equivalents. Please refer to earlier in the price guide for further information.

Why not add a touch of glamour and upgrade to the luxury crystal handle option?

*The Chrome and Crystalized™ Swarovski Elements pull handle (LUXURY01) is offered as an optional upgrade and is not free of charge. Because this is not offered as part of the standard handle offer you must first order your required units without handles. You will then be required to order the number of LUXURY01 handles you require separately for the items of furniture which you are ordering. N.B. All handles shown above are not to scale. All handle centres are in mm. Please specify handle choice when ordering. Handles are only free of charge if ordered at the same time as your units.

LAMINATE COUNTERTOPS

A selection of 28mm laminate countertops with a tight 3mm radius for a contemporary look and feel.

Countertops		£
Reduced Depth 230mm(d)	2000mm(w)* CTPR2023	£128

Required with every sink with an overflow. Wastes are not supplied as part of the sink.

BASINWASTE
£34

TECHNICAL INFORMATION

All furniture is supplied in an assembled format and is non-returnable. All furniture benefits from a 10 year guarantee.

INSTALLATION GUIDE

See below some key installation information. Please refer to the separate installation instructions supplied with the product for full details for all cabinet types.

IMPORTANT

All units should be fitted by a qualified fitter.

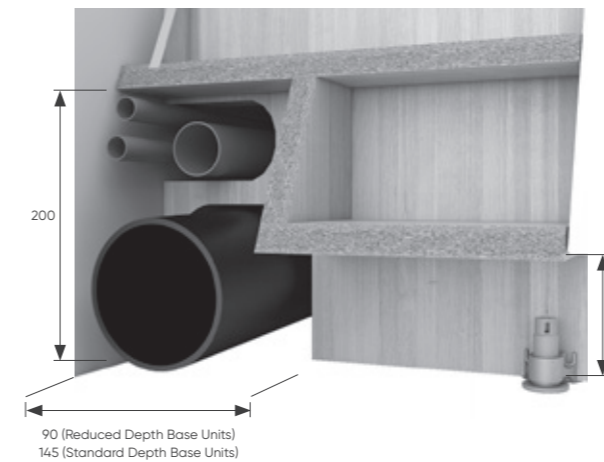

Always check for electrical wires, water pipes or other services before drilling the wall.

Any screws and other fixings used must be suitable to support the units when loaded into the material they are to be fitted.

When fitting handles please be aware that doors are not pre-drilled for the handle. The drillings on the doors may be different between two doors in the same range, so we strongly recommend that each handle is measured and the door marked and drilled to fit the handle.

Base Units

Set height for base units at 811mm on wall above lowest point. Plumb and secure firmly through back rail and brackets. Adjust leg for base support. Scribe into side panels and plinth as required. It is recommended to seal plinth with plinth seal (PLINTHS). Continue adding adjoining units, screwing or bolting together and fixing as above. Base units are boxed out at the rear to allow waste pipes to be run along the back of the units. In this scenario cut out the back of the side panel as required to fit/hold waste pipes (see below).

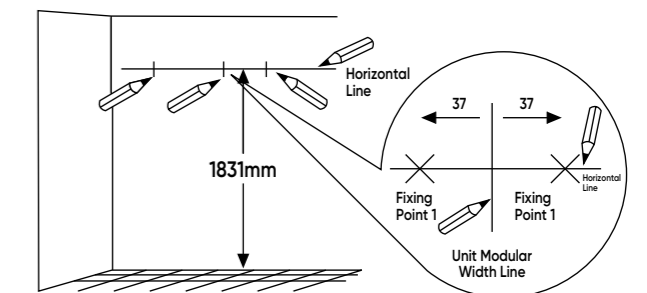

Wall Units

Determine the exact location of the unit(s) and mark a horizontal line 1831mm from the floor. Mark the position of each unit. Fit the hanging bracket plates to the wall as illustrated and use adjustment to level. Secure with additional fixings through back support rail or bracket. Continue adding adjoining units, screwing or bolting together and fixing as above.

Modular Units

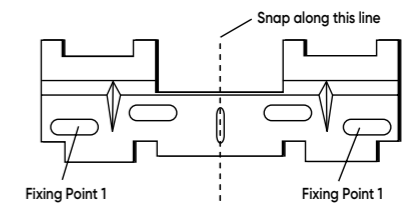

Firmly screw brackets to wall and use adjustment to level. Secure with additional fixings through back support rail or bracket.

Please note that all modular wall hung units require adequately structured walls and are not designed to be fitted onto plasterboard walls unless reinforced with a timber batten.

Installation Sequence

1. All hot and cold services turned off at appropriate positions.
2. Locate waste outlets according to the plan.
3. Fix base units to the wall.
4. Fit countertops.
5. Fit sanitaryware.
6. Fit wall units where appropriate.
7. Connect and check plumbing.
8. Fit continuous plinth if used, scribing as necessary.

CABINET SPECIFICATION

Please see all details below for base, wall and modular unit designs. All cabinets are supplied assembled.

Aquadi represents the latest design trends and features our unique fitted furniture concept. A 90mm high continuous plinth runs flush with the doors to give a contemporary linear styling and the 18mm cabinets are available in gloss white and linen finishes.

Inline includes the same high quality cabinet designs as the main product offer with the chrome wave trim already attached to the doors/drawers.

The cabinet is designed to maximise storage space and features a concealed void at the back to allow for waste pipes.

Base Unit Cabinet Design

(Standard Depth Units)

1. 18mm high density fully colour co-ordinated 0.8mm edged MFC cabinet with matching interior/ exterior finish.
2. Cam & dowel construction.
3. Toughened 6mm glass shelf and chrome shelf bracket.
4. 18mm MFC shelf.
5. Box at back of unit to run waste pipes along the concealed void if required. Side panel can be cut to fit pipes.
6. 8mm removable back with void of 75mm for pipes on basin units.
7. White metal sided drawer box with full extension and soft closing action.
8. 3-way fully adjustable all-metal clip-on hinge with integrated soft close buffer.
9. Supplied with four adjustable feet. These can be adjusted to raise the unit off the floor and to deal with uneven flooring.
10. Plinth clip for clip-on continuous plinth.
11. Wall and countertop fixing bracket are supplied (not illustrated).

Wall Unit Cabinet Design

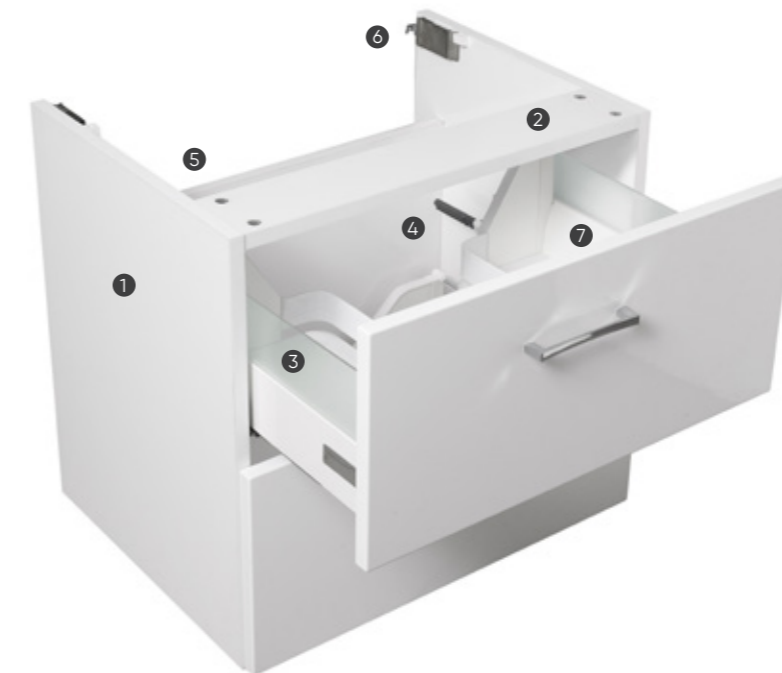

1. 18mm high density fully colour co-ordinated 0.8mm edged MFC cabinet with matching interior/ exterior finish.
2. Cam & dowel construction.
3. Wall units are 724mm high and supplied with two glass shelves.
4. One-piece 8mm solid back.
5. Concealed, fully adjustable wall hanging brackets.
6. 3-way fully adjustable all-metal clip-on hinge with integrated soft close buffer.
7. Wall units with stainless steel effect mirrored doors are available.
8. Toughened 6mm glass shelf and chrome shelf bracket.

Modular Cabinet Design

1. 18mm high density fully colour co-ordinated 0.8mm edged MFC cabinet with matching interior/ exterior finish.
2. Cam & dowel construction.
3. White metal sided drawer box with full extension and soft closing action. Glass sides are supplied on deep drawers.
4. Drawer boxes are shaped to accept wastes. Deep and 2 drawer units are additionally available in a full storage drawer option.
5. 18mm removable back with void of 50mm for pipes, etc.
6. Fully adjustable metal hanging brackets with nickel cover caps.
7. Weight limit for drawer: 30kg. Total weight limit per modular unit 180kg.*

*This weight limit assumes that the unit is suitably secured to a reinforced wall.

1

Measure up

To begin with, take an accurate measurement of your bathroom. Check the dimensions and positions of windows, doors and any other obstructions, e.g. radiators, towel rails, soil and vent pipes and light switches, as these will determine the layout of your bathroom.

TIP...Co-ordinate wall unit size with base units.

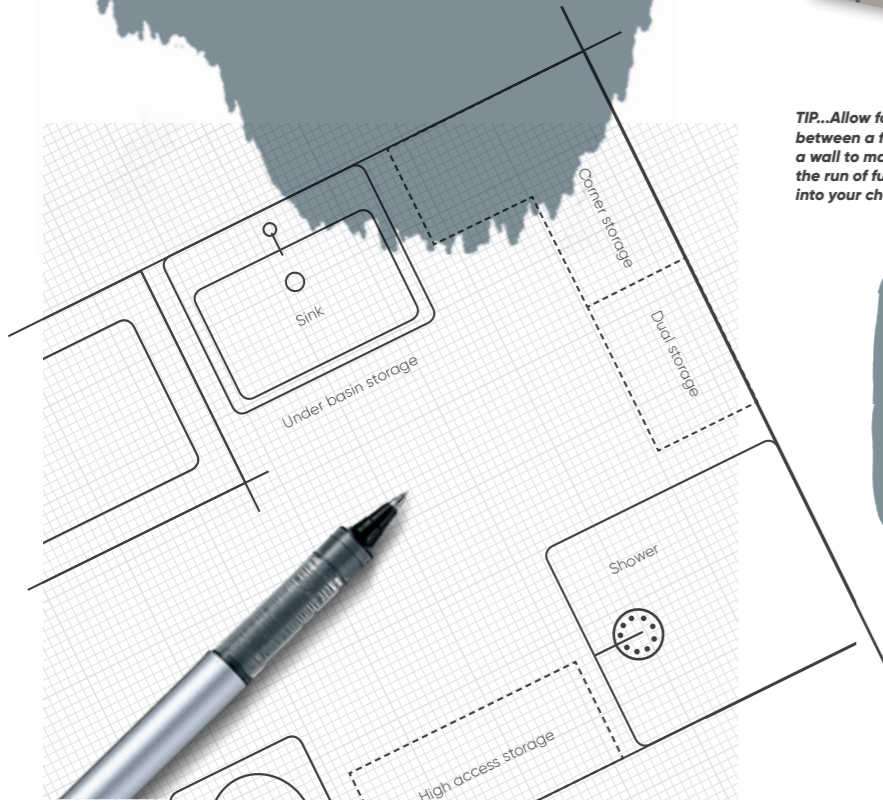

TIP...Allow for filler panels between a fitted unit and a wall to make certain that the run of furniture will fit into your chosen space.

2

Draw it out

Transfer your room dimensions onto graph paper so that you can produce a scale drawing (use 1:10 or 1:20 scale). Mark the position of any waste pipes, soil pipes and incoming water supplies. The location of plumbing affects everything else, so this must be highlighted at the start. Remember though that the beauty of fully fitted bathroom furniture is that your bathroom can be designed to completely conceal unsightly pipework.

3

Plan it in

The next step is to list all the items you would like to have in your bathroom: shower, bath, basin, storage units, mirror, towel rail, etc. Obtain measurements of all these items and then add them to your plan. Full dimensions for all Aquadi bathroom furniture can be found in this Price Guide.

TIP...The bathroom can often be one of the smallest rooms in the house, so if space is an issue, consider the 220mm deep reduced depth bathroom furniture. You may also like to consider the Cloakroom basin unit, a compact storage and basin solution which is perfect for smaller spaces.

5

Accessorise

Finally you can think about accessories. Stunning handle options add style and character, and will be sure to bring your bathroom to life. Additionally, illuminated mirrors are a 'must have' for any contemporary bathroom.

4

Remember countertops

Once you have positioned your furniture on the plan you will be able to take final measurements of the runs of furniture and work out what size of countertop you will need.

PLANNING GUIDE

All Aquadi furniture is supplied in an assembled format only and is non-returnable. Aquadi bathroom furniture benefits from a ten year guarantee.

urbano®

If designing an en-suite, why not include a stunning Urbano bedroom to match.

With a range of wardrobes, chests, bedside tables and accessories available in an abundance of finishes, it couldn't be easier to design the perfect bedroom to suit your lifestyle.

Gallery®

A wide selection of kitchen furniture finishes are presented under the Gallery by Symphony brand.

Incorporating modern, classic and in-frame styles with a vast array of cabinet options will ensure that your kitchen can be designed around the space available in your home.
